

Lawson Mbuyi

Software Developer

Fascinated by the impact of data on business operations, I retrained as a Software developer. I'm hoping to blend my newfound software development skills with existing business knowledge to bring unique insights to this role. Seeking a challenging opportunity in an organization which recognizes and utilizes my true potential while nurturing design and technical skills.

PROFESSIONAL EXPERIENCE

Microdev Feb 2023 – May 2023

Web Developer | Internship

- Wrote automated scripts to scrape data from an existing website and store then to spread Sheet using Python and Scrapy
- Built a new web application support focusing on business transactions using Angular framework, C# and service oriented architecture.
- Improved the performance of real time business activity monitoring report and reduced the report time by more than 50%
